STUDENT feedback

"The instructor has EXCELLENT classroom management skills. She strongly encourages questions, participation, and student feedback on the course."

"I knew exactly how I was doing along the way. After turning in a project, it would already be graded and returned no later than the following week. So that gave us enough time to see what we needed to work on before completing and turning in the next project."

"EXCELLENT and VERY EFFECTIVE teaching method!"

"Best instructor I have had at JCCC. Excellent use of Desire 2 Learn. Wish all the instructors understood the system as well as Audrey. She is a JCCC Diamond. I hope you keep her happy as to retain her service for many years."

"She was very helpful if we didn't understand something--used great Power Points to show more in-depth what the book was covering"

"The instructor is excellent. She is highly skilled and also a great teacher. I have definitely learned how to construct garments under her instruction. She is always willing to help and coach us along as we work on projects."

PROFESSIONAL feedback

"I had the pleasure of working with Audrey at May Company on the Valerie Stevens team. She is a very talented and creative partner who has a strong strategic vision for building a brand. She has a great eye for color, texture, and silhouette. In addition to her strong technical skills, Audrey is a valued team player. She collaborated with cross functional partners to always find the best solution to create a product that would satisfy customer needs" **Joan Braatz – Senior Retail Buyer**

"Audrey was an incredible team player and a valuable contributor to positive business results. She is very creative, detail oriented, smart, and likable with a great sense of humor. I highly recommend Audrey and would love to work with her again in the future." **Stephen Donnelley Senior Vice President E-Commerce**

"Audrey and I worked on the Design and Product Development team at May Department Stores to bring Valerie Stevens Collections and Separates Private Label Products to market. Audrey designed the sweaters while I designed the wovens. She had tremendous ideas and was always supportive of our colleagues and buyers, even when her own workload was overwhelming. She has an incredible design eye and extensive knowledge in the technical aspect of sweaters. Her creative spirit and attitude was a value to the team and her sweater collection was always part of the Best-Seller List!! Fortunately, I was able to convince my next company (Chico's), to utilize Audrey's talents in free-lance projects. She created mood boards, concepts and tech packs in a timely manner that we were able to add quickly and seamlessly into the collection. Audrey is a top-notch designer and a wise businessperson who'd make a tremendous addition to any product development team." **Lurleen Smith-Product Development Manager**

"Audrey is an extremely intelligent and professional problem solver. Highly successful designer with proven ability to drive revenue growth through creative leadership. A strong independent worker as well as a strong team player. Audrey is a great addition to any environment." **Alina Husky - Designer**
